

Sharon School Strengthens Partnership with NJ PBSIS

Sharon School proudly continues its partnership with New Jersey Positive Behavior Support in Schools (NJ PBSIS) as we focus on fostering positive relationships and promoting a supportive school environment. As part of our ongoing PBSIS initiatives, teachers have invited members of our lunch and recess team to join their classrooms and read stories to students. This collaborative effort not only reinforces our commitment to building connections but also provides a meaningful way for our lunch and recess aides to engage with students beyond their regular duties. The aides have embraced this opportunity, and we are grateful for their dedication to supporting our students' growth and well-being. Together, we are creating a stronger, more connected school community!
